41 = 27.0cm
42 = 27.4cm
43 = 28.3cm
44 = 28.7cm
45 = 29.7cm
46 = 30.1cm
47 = 30.8cm
48 = 31.2cm

Attention!
Print 100%

Is it printed in the right scale?

To check, if the template has been correctly printed 100%, take the ruler and measure the scale - the above shown 5cm, must measure 5cm.

1. Fold the template on the dotted line.
Lay the sheet on the floor. The dotted line is parallel to the wall and touches the wall.

Place the foot on the template.

2. The heel touches the wall.
Place a book in front of the foot so that it touches the big toe. (book parallel to the wall). Remove the foot without touching the book.

3. Happy feet need about 14 mm of extra space in the sneakers.

Add 6 mm to your foot length to avoid pressure points – depending on whether you prefer a snug or a relaxed fit. If you're between sizes, we recommend choosing the larger size.

You can adjust the width using the extra insoles and laces.

Take your time – you're about to enjoy real comfort.
